

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF FILE

DATE October 31, 1988

DEPARTMENT

Randy Lyman and Steve Short received a complaint from the sewer flusher that there was gasoline odors in the sewer line H-8, manholes 80 - 23. We checked the L.E.L. in the Brown Derby at 1502 West Kearney and the car lot at the corner of Kansas and Kearney. We did not detect any explosive conditions in either building. We checked all apparent drains and fixtures in the Brown Derby and the same at the car lot. Both businesses indicated they had either smelled a gas odor or had called C.U. to check for a gas leak. The car lot is located in an old gas station and it does not appear the tanks were removed. We walked the sewer line to the South and we may have had a 5-10% L.E.L. in the second manhole downstream. Bob and I will monitor this area in the future.
